

What's Happening?? The Truth About Work... & The Myth of "Work-Life Balance"

Workers, activists, union supporters... Find out "What's Happening??" in the workplace - today!!

In 1998, a range of workplace trade union activists provided contributions to a much-appreciated pamphlet, "**What's Happening?? The Truth About Work...& the Myth of Partnership**". The pamphlet focused on strategies and tactics that work - both in winning victories against management and getting members involved.

Now, ten years later, "**What's Happening?? The Truth About Work...& the Myth of Work-Life Balance**" tells us more about that much-ignored topic - exactly what goes on at work.

This time, even more contributions - from workers in sectors ranging from buses to building work, telecomms to teaching - show us once again that whatever the area of work, management objectives and working pressures are eerily similar. With an editorial linking these common themes together, **What's Happening??** continues to be essential reading for anyone wanting to make a difference to the problems of falling pay, ever-increasing intensification and management bullying facing workers today.
